# NASRAT NEJAT

## Web Developer

I am Nasrat Nejat. A passionate self-taught full stack web developer. I am passionate about creating top-notch and stunning web apps. I can be as active in your project as you need me to be, from the initial concept through the front-end and WordPress development as well as sketching, creative direction, design.

## Projects

### ● Twitter-clone

Twitter is a social networking platform where people can express their thoughts in short posts which people can read and share! I build a Twitter Clone using React JS in the frontend along with Firebase!

I used Firebase Firestore as a database and used Firebase Hosting to bring the clone live on the internet. In this Project We have the ability to post along with Images.

### ● LinkedIn-clone

LinkedIn is all about professional networking —that is, building a group of contacts to help advance your career. I build a LinkedIn-Clone using React JS in the frontend along with Firebase!

I used Firebase Firestore as a database and used Firebase Hosting to bring the clone live on the internet.

### ● Slack-clone

Slack is a messaging app for business that connects people to the information they need. By bringing people together to work as one unified team. I build a Slack-Clone using React JS in the frontend along with Firebase!

I used Firebase Firestore as a database and used Firebase Hosting to bring the clone live on the internet.
